

Accessories

<p>SF-20005</p>  <p>Gate handle. Molded of tough, high quality plastic with shock-proof thickness for safe handling protection.</p> <p>PKG 24/CTN</p>	<p>SF-20004</p>  <p>Hi-visibility rubber handle won't crack. Larger stamped hook. Larger flexible flangs. Internal plastic tube for rigidity. Double shock protection.</p> <p>24/CTN</p>	<p>SF-20009</p>  <p>Heavy Duty Gate Handle. Insulating grip is soft and flexible with safety flanges for extra shock protection. Unique fastening plate ensures a secure wire connection. Will not break, crack or chip with abuse. Steel components are plated to resist rust.</p> <p>6/CTN</p>	<p>SF-20003</p>  <p>Spring Gate Assembly. Gate handle with extension spring stretch to fit openings up to 20'. Handle, insulators and clamp included.</p> <p>6/CTN</p>	
<p>SPA-5</p>  <p>Gate Handle for 1-1/2" Polytape. The handle includes a tensioner connector to attach wide polytape. The internal spring is replaceable if damaged. 12-W White - R-12-B Black</p> <p>1</p>	<p>A-6</p>  <p>Fence Tester. Made of high-quality molded plastic. Light indicates proper current flow through fence wire.</p> <p>PKG 10/CTN</p>	<p>A-6/5</p>  <p>Multi-Light graduated electric fence tester. Tells how well your fence controller is working. Voltages plainly marked.</p> <p>5/CTN</p>	<p>A-6/D</p>  <p>Digital Voltmeter. An electric fence tester with digital readout. Reads up to 9,900 volts</p> <p>1</p>	<p>A-66</p>  <p>Fence Alert Clips onto fence wire or tape. Flashing light indicates low fence voltage. Light can be seen from up to one mile.</p> <p>12</p>
<p>A-11</p>  <p>Twin Towers Lightning Arrester automatically grounds energy flow to the energizer created by a lightning strike on the fence line. Has a reusable gas chamber. For any voltage fence.</p> <p>PKG 2/CTN</p>	<p>SF-20330</p>  <p>Fence Tool. Lifetime guarantee. Made of heavy steel with rubber grips. Also available in bulk packaging.</p> <p>12/CTN</p>	<p>FT-2</p>  <p>ChannelLock Fence Tool. Lifetime guarantee. Made of heavy steel with rubber grips.</p> <p>5/CTN</p>	<p>KT-10</p>  <p>Fence tool combo. The easy fence tool makes unrolling barbed wire a one person job. The multi-purpose tool pulls, staples, wire and cuts wire and hammers.</p> <p>6/CTN</p>	<p>SF-20012</p>  <p>Bright yellow plastic with bold black letters. 4" x 8" sign has 2 holes for wiring to fence or nailing to post.</p> <p>3/BAG 30/CTN</p>
<p>SF-20400</p>  <p>IN-LINE STRAINER WITH COMPRESSION CLIP. Use to tighten high-tensile wire. Under compression, it automatically feeds into cog reel.</p> <p>PKG 50/CTN</p>	<p>SF-20399</p>  <p>Heavy-duty in-line strainer. Contains spring clip & can be tightened with a wrench.</p> <p>25/CTN</p>	<p>SF-20305</p>  <p>Stretcher crank (handle). For use with the wire-stretcher cogs. 12" long.</p> <p>10/CTN</p>	<p>SF-20401</p>  <p>Tension Springs install permanently in fence line in tandem with the wire stretcher cog. For heavier gauge wire.</p> <p>25/CTN</p>	
<p>FT-FO (Orange) FT-GR (Red) FT-GP (Pink) FT-GW (White)</p> <p>Flagging Tape. Florescent high-visibility ribbon for flagging electric fence wire.</p> <p>PKG 12 Rolls/CTN</p>	<p>2341</p>  <p>Easy to use metal wire tightener. Install without cutting wire. Perfect for Electric Fence wire gauges 14-18 or Polywire.</p> <p>50/CTN</p>	<p>2199 (Double-pole) SF-20562 (Single-pole)</p> <p>Cut-Off Switch (double-pole). (Single-Pole) Used to re-direct current on electric fences or current cut off. Stainless steel knife switch with large, heavy-duty base. Made for outdoor use.</p>  <p>6/CTN</p>	<p>SF-20071</p>  <p>A-71 Line tightener (5/bag)</p> <p>6/CTN</p>	
<p>SF-20410</p>  <p>Ground Clamp A good ground clamp is essential to electric fence performance. Poor grounding is the #1 reason for fence controller failure.</p> <p>PKG 1</p>	<p>7335</p>  <p>A 5/8 x 2 ft. galvanized Ground Rod. Perfect for small backyard fences. (ground clamp not included.)</p> <p>1</p>	<p>7336</p>  <p>A 5/8 x 6 ft. galvanized Ground Rod. Perfect for large fencer applications. (ground clamp not included.)</p> <p>1</p>	<p>1707</p>  <p>Wire Twisting Tool. Drilled on both ends. Makes bending and twisting 12 1/2 gauge wire easy.</p> <p>1 Poly Bag 10/CTN</p>
